P.T.O

Proceedings of the Hospital Advisory Committee meeting held at Kollegal on 11-7-50 at Office of the Revenue Divisional Office, Kollegal.

Dr. K.Vasudeva Rao, Deputy Surgeon-General with the Govt. of Madras, was present by invitation and the committee discussed with him the ways and means in which the work in the Hospital can be improved and made useful to the public.

Sri Gurukar Madappa offered to present an ambulance cart with bulls to the Hospital so that it may be used in the transport of sick patients from their houses in the town and villages to the Hospital when necessary. Resolved to address Government to accept the present and to take over their maintenance.

The Committee feels that an X-Ray equipment is quite essential at this centre. The Committee feels confident that it will be able to find the necessary funds therefore and for a building to house it by raising public donations. Resolved to address Government to find out whether they will be able to take over the maintenance of the unit. The Committee will take steps to raise the necessary funds on hearing from Government.

The Committee thanks the Deputy Surgeon-General for having kindly consented to be present at the meeting and given the benefit of his views.

Although the offer of the ambulance cart with bulls is free, it is not known what is their present state and how long they can be expected to be useful. The proposal involves a recurring expenditure of Rs 1,020 per annum by way of maintenance charges. It is not stated how many sick patients are in need of transport daily from their houses to hospital, and why the State should provide for such transport, apparently without collecting any fees from them. Even if fees are levied, it is not likely that the rate can be so fixed as to cover the cost of maintenance. On the whole, it seems that the offer may be declined. Finance may advise accordingly.

It is subd. that there should have been some difficulty at Kollegal for the transport of sick patients - especially poor people who cannot afford to pay for a conveyance - from their houses in the town and neighbouring villages to the hospital, or else Sri Gurukar Madappa, a member of the Hospital Advisory committee, would not have made such an offer. The Dy.S.G. was present when the Hl.Advisory committee met on 11-7-50 to discuss the ways and means of improving the hospital and the offer of the ambulance cart was made in his presence. Finance state that although the ambulance cart with bulls is free, it is not known what is the present state and how long they can be expected to be useful. It is subd. that when a donor offers an ambulance cart with bulls it may be presumed that he would

be giving a new ambulance cart with healthy bulls and they will be useful at least for a minimum period of 5 years.

In the circumstances it is for orders whether the proposal of the S.G. or the advise of Finance may be accepted. In either case, the case should be circulated to H.C.M. and H.M.(F in.) for orders.

SP 22/2/51 mm 22.2.51 The question may perhaps be discussed with the Dy. S.G., who, it is stated, was present at the meeting of the Hospital Advisory Committee.

22/2/51

Spoken to Dy Surgeon. The public of Kottayal has constructed and donated a maternity ward of about 16 beds including a special beds and a lady doctor is actually working. In the hilly tracts it will be impossible for a motor ambulance to function. This is why the Dy. S.G. has proposed acceptance of the offer. He says that there will be at least 4 patients who transports daily. The usual charge for one way a motor ambulance is about 8 annas or so a mile. The Dy SG. suggests that two annas a mile may be charged for the Cart. On the basis of transport of 4 p/ about a day over an average distance of about 5 miles (for reaching 10 miles to & fro). the receipts will amount to Rs 5 per day. In any case it will return at least Rs 1000 p.a.

2. In the circumstances the offer may be accepted subject to the levy of a charge of 2 as per mile towards, per patient

3. This may be seen before O.M.
